flash based

submit button only no reset or clear!!

## Global Navigation wireframe

### Uses:

- a branding device; ties all ITRI sites to the parent site itri.org.tw and provides visual recognition that each site is part of the greater whole
- provide common services to other sites
- provide modest enterprise wide navigation

same function as global navigation tools

中文 - Taiwan  
directory | contact

International - English  
directory | contact

Global Site/  
Contacts

on click creates menu box holding all of the info within this flash file (or linked to a external swf)
